EAN: 7350073732722

Multibrackets M Display Stand 180 Dual Pillar Wheelbase - Stand for LCD / plasma panel - aluminum - silver - screen size: 70" - 110" - mounting interface: up to 800 x 600 mm - wheel-standing

Our Dual Pillar Wheelbase stands will make your information stand out anywhere it is being used. The all new Multibrackets 180 Dual Pillar Wheelbase stand is a unique solution targeting audiences anywhere, both sitting and standing. With a 125 kg max weight it can hold screens up to 110". If you are after a great looking and well designed floor stand handling your large size LED or LCD's the M Display Stand 180 Dual Pillar Wheelbase is a strong contender for the job. When designing this series floor stands we have emphasized to include all of the features you may need now, or may need in the future - making it perfect for near any application. Appealing Scandinavian design, display height adjustments and a quick assembly while providing a ridged, but attractive, structure that fits into any décor. The strong and solid base plate ensures great safety. Holding screens up to 110" or 125 kg its capacity is second to none. The large size screen can be mounted portrait or landscape. This makes the M Public Display Stand 180 Dual Pillar Wheelbase usable for any occasion.

Large screen - Perfect match

With its 180 centimeter height it is a perfect match for that Large Screen display in boardrooms, training rooms, lobbies, classrooms, auditoriums, or exhibit halls. With a built in 220V Power rail it is easy to connect screen and other accessories without creating a mess. Multibrackets also provides a line-up of accessories offering functionality to meet your requirements. Different shelves, CPU holders, Cable hooks, Camera holders and Brochure holders are just some of the accessories you can equip the M Display Stand 180 Dual Pillar Wheelbase with.

Aluminum construction - Built to Last

Light weight with only a third of the density of steel but high in strength directly comparable with steel an aluminum extrusion is probably the best material to make a pillar based floor stand out of. Aluminum also has exceptional resistance to corrosion.

Designed to make a long lasting impression

Design from us is often described as being fairly minimalist, with clean simple lines. Highly functional, the style is effective without needing heavy elements; only what is needed is used. Our M Public Display Stand 180 Dual Pillar Wheelbase is designed through that philosophy, as an example you will see little or no excessive cables around the floor stand. The pillars has built in cable management, making any audio or data cables disappear into the pillar itself. The included steel floor base has a wide footprint making the unit stay steady on ground, yet thin enough not to be in focus.

With its high quality and installer friendly design this floor stand will never be out of place. It is fast to install in any place or occasion when it is needed. Our M Display Stand 180 Dual Pillar Wheelbase is perfect for rental purposes or any other occasion where fast assembly/ disassembly is needed. As with all our Public Display stands are built to create greater stability and holding great weight.
