

GAS LIFT ARMS &
MONITOR STANDS

AT Multibrackets we know that you are not always sitting in the same position whilst at work, so why should your screen stay in the same place? Our series Lift Arms' are the ultimate desk or wall mount companion to add flexibility and ingenious ergonomics to your monitors. Designed to provide outstanding performance, with a sleek and streamlined look, it frees up space and allows you to easily position your display for greater productivity. It is ideal for both office and home use and especially in situations where a user can be both standing up and sitting down. So, let's start letting your fingertips lift, swing, tilt and rotate your LCD display.

Officeline Pro

Total flexibility - Build your desktop monitorwall after your needs

HIGHLIGHTS:

- A high level designed productline for office use.
- Made for the semi professional user.
- Creates maximum ergonomic comfort for displays.
- Simplified installation and simple after adjustment possibilities.
- Plexi based cable management.

Officeline Pro 's key advantage is its modularity. This line up meets the needs of virtually every requirement in the modern computer workstation environment, offering exceptional adjustment; display, tilt, swivel and rotation and can accommodate a wide range of monitor weights and sizes.

Create the ideal multi display arrangement and position your monitors individually to increase productivity, reduce eye, neck and shoulder strain. At the same time, you will be saving space and creating the ultimate viewing position for each monitor with micro adjustment possibilities for each display. The products are slender and low profile yet the weighted base provides enhanced stability and minimize clutter with the intuitive cable management system.

Officeline

Frees up space - Allowing positioning of your display for greater productivity

HIGHLIGHTS:

- A high level designed productline for office use.
- Made for the semi professional user.
- Creates maximum ergonomic comfort for displays.
- Simplified installation and simple after adjustment possibilities.
- Plexi based cable management.
- Optional through hole installation with Grommet Base.

From a simple single monitor desk stand to a more system like thinking capable of handling multiple monitors. Multibrackets Officeline offers a wide variety of stands to meet virtually any demand. Low-profile, single monitor stands allowing the user to freely position the monitor anywhere along the edge of the desk allowing a line of sight across the table.

At the other end of the spectrum, the multi monitor Officeline Dual and Quad mounting system offering great scalability: Start with two monitors and gradually expand to 3, 4, 6, or 8 monitors as your needs change, while independently adjusting each monitor to the precise position and angle you need.

Deskline

Increase your productivity & free up desk space
Optimize your office or gaming setup

HIGHLIGHTS:

- Gracefully adjust your monitors height and position.
- Rotate monitor to landscape or portrait mode.
- High grade materials with anti scratch surfaces.
- Built in cable management system.

This series of free standing or clamp based mount lets you install one, two, three or four displays up to 27", on a single base that you can place in virtually any workspace. The black finish complements your office decor. Set up a single or multi monitor workstation with this VESA monitor stand (75x75, 100x100 mm) to multitask faster and boost your productivity.

Compare and edit files on two screens with ease. Rotate your monitors 360 degrees for portrait or landscape viewing. Free up desk space with the low profile base and maximize the surface area. Its crossbar design keeps your monitors perfectly aligned and makes it easy to mount and finetune adjust two flat panel displays side by side. The monitor stand features a flat, low profile back so you can position your displays against an office wall or cubicle wall to free up space.

Improve your posture

Office Ergonomics - How to battle a poor posture. With the continuing rise in popularity of computers and mobile devices, an increase in postural strain is being placed on our bodies. Poor posture while using desktops, notebooks and multiple screens on the desk place the

upper body in a position of increased neck flexion with rounded shoulder posturing. This can lead to a variety of musculoskeletal issues and postural deviations. Given the length of time spent in these postures on a daily basis, places office workers at an even higher risk of developing disorders.

For these reasons, it is important to ensure proper office ergonomics are in place. Maybe it's time for your business to discover a new level of refinement with our Monitor Stands and Gas lift solutions.

5 tips for an ideal sitting position

- Shoulders relaxed
- Straight back
- Circulation in legs
- Healthy hip and knee joints
- Feet flat on the floor

MONITOR

Adjust distance and height top of the monitor at eye level and slightly tilted.

ARMS

Relax shoulders and forearms parallel to the floor.

CHAIR

Should have a backrest and armrests, adjust height.

LEGS

Thighs parallel to the floor.

FEET

Parallel to the floor, use a footrest if necessary.

5 tips for an ideal standing position

- Shoulders relaxed
- Straight back
- Pelvis in neutral alignment
- Circulation in legs
- Hip, knee and ankle joints aligned with gravity line

MONITOR

Tilt your monitor back 10 - 20°.

ARMS

Maintain keyboard height even with elbows.

BODY

Change posture every 30 minutes.

LEGS

Use an anti fatigue mat while standing.

FEET

A foot rest is essential to shift your weight from one leg to another.

M VESA Gas Lift Arm

Desk or Wall

Use it on a desk or fix it to a wall

HIGHLIGHTS:

- Ultimate fit. Improve your monitors movement and overall ergonomics.
- Mounts on your desk or onto a wall.
- Works with most mid size displays up to 32".
- Saves space and holds your cables hidden.

The M VESA Gas Lift Arm Desk or Wall made out of a durable aluminum construction and uses a gas driven suspension technique. This makes the screen "float" and it can then be moved with near zero effort. Sleek and streamlined, the M VESA Gas Lift Arm frees up space and allows positioning of your display for greater productivity.

The unique counterbalance gas technology provides smooth adjustment in any direction. Easily move the screen from landscape to portrait position or move the screen close to the desk, high up, matching almost any wanted working position imaginable. In addition, this version of our Gas Arm can be mounted directly to the wall.

Dual Monitor

Increase effectivity

Reclaim desk space with dual monitors

HIGHLIGHTS:

- **Double your display area**
Perfectly aligns two LCD displays side by side, improve your daily use and increase efficiency.
- **Space saving**
Clear your desk and enlarge your working area.
- **Better motion**
This arm easily adjusts monitors up to 32" in size.
- **Scandinavian design**
We designed this with both mechanics and aesthetics in mind.
- **Highest build quality**
Our gas arms are built to last longer than our competitors by passing our 10000 cycle motion test.

Built in
Gas Lift Cylinder

Did you know using dual monitors can increase productivity by up to 30%? In tests it has been found that considerable time can be saved if an employee uses more screens with documents open simultaneously, rather than opening and closing documents on a single screen. This low profile dual screen monitor arm series is aimed

to keep employees efficient as well as returning precious space. So, let's start reclaiming that desk space and get everyone more efficient while doing it. Create a fully adjustable dual monitor configuration that lifts both LCD screens simultaneously. Providing a compact range of motion and optimal ergonomic alignment.

Dual Monitor Side By Side

Optimize space, productivity and comfort with dual monitors side by side

HIGHLIGHTS:

- **Super flexible**
Designed for side by side, low, high screen angle views.
- **Space saving**
Clears your desk, creates extra workspace.
- **Better motion**
This arm positions two monitors up, down, landscape or portrait.
- **Scandinavian design**
We designed this with both mechanics and aesthetics in mind.
- **Highest build quality**
Our gas arms are built to last longer than our competitors by passing our 10000 cycle motion test.

Increasingly, computer users are adding second monitors to their desk setups to allow for easier task switching and comparison between multiple files. Actually, using two displays side by side, according to independent tests, can increase productivity by up to 30%. Our range of side by side dual monitor

display, effortlessly adjusts to suit your needs. Featuring extendable and retractable arms which tilt to alter reading angles, not to mention rotating to either portrait or landscape modes. Having each monitor on individual gas driven arm allows one screen in landscape and the other in portrait as well

as having the displays at a different distance depending how your eyes are responding. Our Side by side dual screen monitor arm series is aimed to keep coworkers efficient as well as clear desk space.

Perfectly suited for users who require unparalleled range of motion or use multiple applications at once during their daily work

Multi Monitor Solutions

Dual & Quad

Multiple monitors can streamline your work and increase your work productivity

HIGHLIGHTS:

- **Super flexible**
Two or four monitors independently adjustable to fit your daily needs.
- **Space saving**
Clears your desk and creates extra workspace while maximizing comfort.
- **Heavy duty**
Single Pole with heavy duty clamp.
- **Well designed**
3rd generation Gas arm designed with both mechanics and aesthetics in mind.
- **Highest build quality**
Our gas arms are built to last longer than our competitors by passing our 10000 cycle motion test.

We believe the M VESA Gas Lift Arm Dual/Quad series to be one of the world's best multi monitor arm systems. The durable system made out of mainly aluminum can safely secure two or up to four monitors at once and with its accessories it can accommodate various configurations. Utilizing the Multibrackets new generation of Quick release monitor arms it provides

cutting edge features for any IT department to reduce downtime if monitor service is needed. M VESA Gas Lift Arm Dual/Quad is perfect for the modern workplace and encourages flexibility and collaboration at the workstation. After installation one can easily set each monitor at an optimal distance and height, this increases usable desk space and allows the user to work in

a healthy posture throughout the day even with as much as 4 different monitors at the desk. The built in innovative cable management system will guarantee that your desk remains uncluttered. With the aim to be simple to install, easy to use, this series provides an overall reduced cost of ownership.

M Vesa Gas Lift Single & Dual

Battle today's fast paced environments with increased efficiency and reclaimed desk space

HIGHLIGHTS:

- Exceptional range of flexible motion featuring 90° to +90° tilt, 180° swivel, and 180° rotation.
- Monitor can be placed in portrait or landscape.
- High grade aluminum arm features a stylish anti scratch surface.
- Smart built in cable management system.
- Supports monitors with VESA 75/100 from 1 kg up to 9 kg.
- Clamp and grommet included as standard.
- Easy installation and tool less monitor placement with perfect counterbalance presentation in all directions.

Our gas arms are built to last longer than our competitors by passing our 10 000 cycle motion test. We believe the M VESA Gas Lift Arm Dual/Quad series to be one of the world's best multi monitor arm systems. The durable system is mainly constructed from aluminium and can safely secure two or up to four monitors at once with accessories in various configurations. Utilizing Multibrackets new generation

of Quick release monitor arms it provides cutting edge features for any IT department to reduce downtime if monitor service and maintenance is needed. M VESA Gas Lift Arm Dual/Quad is perfect for the modern workplace and encourages flexibility and collaboration at the workstation. After installation one can easily set each monitor at an optimal distance and height. This also increase usable desk

space and allows the user to work in a healthy posture throughout the day even with as many as 4 different monitors on the desk. The built in innovative cable management system will guarantee that your desk remains uncluttered. With the aim to be simple to install, easy to use, this series provides an overall reduced cost of ownership.

Unparalleled range of motion

The ideal solution for offices, classrooms, foyers or any other place you may need.

Deskstands/Workstations

Elevate productivity

Smart Workstation solutions promotes long term healthy computing

HIGHLIGHTS:

- **Super flexible**
Individually fine tune your monitor for how you work best.
- **Space saving**
Clears your desk and creates extra workspace while maximizing comfort.
- **Stability & durability**
Best in class stability & tested over 10000 times.
- **Effortless and Virtually Silent**
No cranking, no clicking, your display will move effortlessly.
- **Build quality**
Our Workstations are built to last longer than our competitors.

Our Workstations are built to last longer than our competitors. Whether you are sitting or standing our wall or desk mounted counterbalanced Workstation Arms let you position your monitor in the most ideal ergonomic position for you. For both Workstation Arms and Easy Stand there are no fixed heights, no cranking, no clicking unlike many other products out there. By elevating your monitor or monitors, you will free up the space below for other important items. That means you will have more

space for multitasking. Another benefit is the added viewing capabilities. Have you ever had to share a presentation at your desk or perhaps with a patient (medical applications)? Having a Workstation monitor arm can make that kind of viewing experience a whole lot more enjoyable.

Easy Stand Workstations is our range of counterbalanced height adjustable desktop Workstations. Available as a single and dual monitor solution this will reduce the strain on

your shoulders, neck, and eyes when properly positioned. A great solution for flexible and comfortable working year around. Easily placed onto any desktop it adds a worksurface that stays with you as you sit or stand. With a click you simultaneously lift your keyboard and LCD screens to proper height, with another click you can lower it back to the desktop.

Cable Socks

Versatile, with flexible properties Cable Socks gives abrasion resistance for delicate cables

HIGHLIGHTS:

- Expands easily to ensure complete coverage and protection.
- Offers general protection from abrasion, chemicals and temperature for optimal protection.
- Available in various sizes and colors.
- Designed to adjust and expand to irregular shapes.
- Keeps its flexibility under a wide range of temperatures and over time.
- Constructed from tightly woven polyester material.
- Provides easy installation on already existing applications simply unwrap the cable sock and apply directly to your cable or product.
- Highly versatile with flexible properties, excellent for office/commercial/ industrial uses.

What's special about Cable Socks, and why would they be needed? Leaving delicate cables exposed to the outside elements puts them at risk of costly abrasive damage and UV degradation. Adding Multibrackets cable sock solutions to cables in high traffic or high friction areas will help extend cable

life and save you money down the road. Unlike traditional braided sleeving or wire loom, these cable socks install easily with no special tools or endless sliding. Our unique colour options also allow colour coding and easy identification of cable infrastructure. A good choice for AV cables, computer cables

(inside and out), server halls, data-centres optical cables (5mm version), hospitals, hotel rooms and anywhere else one might need high quality cable socks. Our Cable Socks are also fire retardant.

Protecting and grouping of wires after installation
To be used - everywhere!

Application:
It is widely used in electrical wiring, cables, wiring harness and hoses for high-speed trains, cars, automation equipment, instruments, and especially for irregularly wiring harness.

Notes

[illegible]

"Everything starts with you.

For us to create great products it always begins with putting you the user at the heart of everything we do."

Mission

We are on a mission to create products that are simple to install and use, that excites and solves our clients daily needs - everyday, all year around. Based in Stockholm, Sweden we design, develop and market AV Equipment. But we do it our way. Armed with a genuine passion for new technology and user centric innovation, we take a product and give it a little bit of Multibrackets magic!

About us

Founded in year 2000 we are a family owned business and represented in over 30 countries. Today we are considered one of the leaders in the rapidly changing environment of digital signage technology – together with our distributors we are providing hardware and services to enable the full value from idea to a ready product. With one of most comprehensive product lines in EU we supply Audio Visual Equipment for every need. Multibrackets reputation for innovative products is well known.

Become a partner

Stay ahead of your competition – Let us help you become a partner. Simply send us an email on support@multibrackets.com or go to our webpage <https://products.multibrackets.com/en/contact> for a contact with us at Multibrackets and we will help you with a distributor's contact. We look forward to your email.

Sustainability

At Multibrackets we see sustainability like a journey. Being in the AV business means we have a responsibility to take care of the environment and everybody who plays a part in making our products. We are working hard to design sustainable products, minimize our impact on the environment, improve our sourcing and create a great workplace for our employees. Find out more about what we are doing and what we've already achieved on our web.

Copyright

This catalogue is protected by copyright laws. The graphic design, content, and images in this catalogue may not be reproduced, published displayed, or reproduced in any way, in whole or in part. This catalogue is considered the intellectual property of Multibrackets Europe AB, and we respectfully ask that you not copy, transmit, distribute, or create a derivative work based upon the content and materials of this catalogue. The content is also subject to the copyright laws of EU and the US (Act of 1976, Title 17 of the United States Code) and may not be copied for use in your publications or newsletters without prior written consent of Multibrackets Europe AB. If you are a customer of Multibrackets Europe AB and would like permission to use one of our articles in your company publication, please email and we would be happy to consider giving you permission to do so, as long as you would be willing to credit your source (Multibrackets Europe AB).

We reserve ourselves for printing errors

Printing errors. While we strive to display all our information as correct as possible, there sometimes occurs misprinting's and faulty information in catalogues. If this happens, and it should affect in any way the forms of, for example faulty product information, or the alike, we will inform you as soon as we notice, and amend it. Please note that we reserve ourselves the right to cancel any order that has been sold presented with a misprinted information. Editing, deleting, or modification of this catalogue: We reserve the right, for any reason, to edit this catalogue. That means, without advance notice, we may suspend, discontinue, edit, or delete current information, products, services, or any other content appearing in this catalogue.

Again, Welcome to Multibrackets Europe, one of the leading manufacturers of Audio Visual Equipment in Europe.
